Some Key Highlights from the Report

In September 2020, Koneksa, a firm engaged in the development and implementation of patient-specific digital biomarkers for use in the drug development process, declared the completion of Series B funding round worth USD 16.0 Million. Koneksa intends to deploy the fund for the integration of wearables and other patient-specific technologies into clinical research by expanding its digital platform.

The low cost and improved scalability of digital biomarkers based on smartphone apps help in facilitating a prospective wealth of social, behavioral, psychological, and environmental data that were formerly inaccessible.

Regional Outlook

We carefully examined each division, regional classification, national study, and subject-specific data set during the market research. This Digital Biomarkers Market research report's goal is to look at growth patterns, promising futures, important obstacles, and expected results.

Information on significant market participants, strategic alliances, plans, new product launches, and joint ventures are all included in the research.

Research Methodology

Emergen Research follows a cohesive methodology to reduce the residual errors to a minimum level by refining the scope, validating through primary insights, and nurturing the in-house database on a regular basis. A dynamic model is formulated to capture the regular fluctuations in the market and thereby, being updated with any shifts in the market dynamics.

SECONDARY RESEARCH MODEL

Extensive data is obtained and cumulated on a substantial basis during the inception phase of the research process. The data accumulated is consistently filtered through validation from the in-house database, paid sources, annual report of companies, SEC filings, government press release, pricing databases and many more.

Key Reasons to Purchase Digital Biomarkers Market Report

The reader will be in a position to comprehend and react to marketing strategies like using strengths and conducting a SWOT analysis.

The research looks into the dynamics of the target market and how the conflict between Russia and Ukraine has affected it.
