

# dicentra Global Certifications is now a CanadaGAP® licenced Certification Body

*dicentra Global Certifications is pleased to announce that it has been licensed to provide certification services for CanadaGAP® in Canada and the United States*

TORONTO, ON, CANADA, April 17, 2023 /EINPresswire.com/ -- [dicentra Global Certifications](#) (GC),

We're really excited to expand our certifications offering with CanadaGAP. Many of our clients require CanadaGAP certification and to be able to provide it increases the value we can bring to them."

*Peter Wojewnik, Partner at dicentra*

a division of dicentra Inc. is pleased to announce that it has been licensed by the CanadaGAP Program to provide certification services for CanadaGAP® in Canada and the United States.

CanadaGAP is a food safety program developed in Canada to promote Good Agricultural Practices for fruits and vegetables. It is the first food safety program developed in Canada to have been recognized by the Global Food Safety Institute (GFSI).

The certification program is based on Hazard Analysis and Critical Control Point (HACCP) principles and applies to the

production, packing, storage, repacking, wholesale, and brokerage of fresh fruits and vegetables.

"We're really excited to expand our certifications offering with CanadaGAP," said Peter Wojewnik, Partner at dicentra. "Many of our clients require CanadaGAP certification and for us to be able to provide it increases the value we can bring to them. As a Canadian-owned and operated certification body, we're happy to partner with CanadaGAP, Canada's first Food Safety Program to be officially recognized by the GFSI."

dicentra will begin offering the CanadaGAP A1, A2, B, C, D, E, F certification options to clients starting in the summer of 2023.

"We are pleased to announce the addition of dicentra to our list of licensed certification bodies, and proud to offer our program participants additional options in certification body service to support their efforts in maintaining and obtaining their CanadaGAP certification," said Stephanie Lariviere, chair of the CanAgPlus Board.
