

GoodData Recognized in the 2023 Gartner® Magic Quadrant™ for Analytics and BI Platforms

SAN FRANCISCO, UNITED STATES, April 18, 2023 /EINPresswire.com/ -- [GoodData](#), today announced it had been recognized by Gartner, Inc. in the 2023 Gartner® Magic Quadrant™ for Analytics and Business Intelligence Platforms report. GoodData was one of 20 vendors included in the report, which analyzed the company's overall "Completeness of Vision and Ability to Execute".

We believe being recognized in this Magic Quadrant is a sign of the incredible growth of our platform and the hard work of our teams."

*Roman Stanek, Founder and
CEO at GoodData*

"We are pleased to be recognized by Gartner. Gartner, Inc. delivers actionable, objective insight to executives and their teams, and we believe being recognized in this Magic Quadrant is a sign of the incredible growth of our platform and the hard work of our teams," said Roman Stanek, Founder and CEO at GoodData.

Built from the ground up with modern cloud-first

technology, GoodData Cloud is driving the transition from brittle and manually intensive data investments to an automated and engineering-focused analytics platform. Our platform is prized for its ease of implementation, comprehensive capabilities, and openness for analytics developers and analysts. GoodData's philosophy delivers an API-first, analytics-as-code experience that lets data teams build and scale with unprecedented speed, security, and agility:

1. Analytics as code: Everything in GoodData is managed and scaled through code, which translates to easy automatic deployments, testing, and customization of analytics environments.
2. Headless metrics: GoodData provides a single, open metrics store for connection with all BI, AI, and apps, ensuring data consistency and governance across any use case.
3. SDK + SQL for everything: GoodData unites all analytics personas — data analysts, scientists, and engineers — with a comprehensive set of API, SDK, and SQL endpoints.
4. Complete analytics package: GoodData includes data transformation, a headless metrics layer, a data catalog, and a BI front end.

5. Deploy anywhere: GoodData plays nice with everyone and is deployable anywhere — any public or private cloud, data center, or region.

“We believe our inclusion in the Magic Quadrant is a testament to the strong collaboration we continue to foster with our customers. We’re fortunate to have such an innovative customer base that shares our vision for modern analytics,” said Chris Lobdell, GoodData’s Chief Revenue Officer. “Despite the broader economic challenges, GoodData’s Cloud offering grew 300%+ year over year on the strength of net new customer acquisition and expansion, all while remaining profitable.”
