This innovative platform is designed to provide individuals and organisations with an easy and efficient process to issue immutable, tamper-proof, and secure digital credentials.

CredSure offers a range of benefits, including:

- Secure storage and management of digital credentials

- Easy access to digital credentials from anywhere, at any time

- Instant verification of credentials by third-party organisations

- Increased brand recognition and revenue-generating opportunities

- Easy social sharing of digital credentials across social media platforms

We are excited to offer this new platform to our customers and help them take control of their digital credentials.”

Tim Miller, Co-Founder and CEO of Certif-ID and CredSure

“Digital credentials have become increasingly important in

today's world, and our new platform provides a convenient and secure way to manage them,” said Tim Miller, Co-Founder and CEO of Certif-ID and CredSure. “We are excited to offer this new platform to our customers and help them take control of their digital credentials.”

The digital credential platform is available to individuals and organisations of all sizes and is

compatible with various types of credentials, including degrees, diplomas, reports, transcripts, audit documents, and other certifications.

“CredSure has supported some of the world’s leading businesses to issue over half a million credentials in the last 2 years. We understand the challenges that individuals and organisations face in managing their credentials, and our platform is designed to make the issuance process a lot easier and more convenient than ever before. With an exceptional customer support and technology team, we are eager to take CredSure to new heights. ” added Tim Miller.

CredSure has a reputation for delivering high-quality products and services, and the launch of its new digital credential platform is no exception. The company’s team of experts have worked tirelessly to create a user-friendly, secure, and efficient platform.
