/EINPresswire.com/ -- Representatives with [Adora POS](#) are proud to announce today that through hard work, dedication, and a commitment to providing above average customer service, it is celebrating its ninth anniversary.

“We consider it an honor and privilege to serve our customers for the past nine years,” said Kevin Wendland, President, and spokesperson for Adora POS, a cloud-based system supporting face-to-face customer ordering, online ordering, delivery, kitchen, marketing, security, and all restaurant management tools necessary to efficiently manage a pizza restaurant business.

Adora POS offers free consultations and demos of its POS for restaurants.

“Our team’s collective restaurant experience means we know how cumbersome, clunky, and outdated POS systems can be. Adora is different—it’s designed to minimize clicks and streamline every process. Our intuitive software is easy to learn, and it aligns with the modern world in which it operates,” said Kevin Wendland, president, and spokesperson for Adora POS.

Regarding [the company philosophy](#), Wendland revealed how the executives of a pizzeria were frustrated by the POS options available on the market. Adora Founder & CEO Sharli Younan decided to take matters into his own hands. After experiencing how POS systems failed to meet the technology needs of restaurants in the modern world, and how they lacked the ability to scale to work for multiple store franchises, Sharli set out to create a sleeker, more effective POS.

“That’s what we offer,” Wendland said before adding, “We look forward to what the future holds, and we know that the best is yet to come.”
