

Simple Helix To Provide Cutting-Edge Cybersecurity Solutions Through Abacode Partnership

Simple Helix will collaborate with Abacode Cybersecurity and Compliance firm in the United States, to provide customers with enhanced cybersecurity solutions.

HUNTSVILLE, ALABAMA, USA, April 18, 2023 /EINPresswire.com/ -- Simple Helix recently partnered with Abacode, a leading Managed Cybersecurity & Compliance Services Provider (MCCP™).

The partnership will provide Simple Helix clients with more secure IT options and a wide range of cybersecurity services.

Through the Simple Helix - Abacode partnership, Simple Helix clients will have access to vulnerability assessments, cyber threat detection, incident response, digital forensics, awareness training, policy and procedure development, framework-based gap assessments, compliance assistance, SIEM + EDR + SOC services, and more.

“Simple Helix is a premier Managed Service Provider that is specifically dedicated to helping our customers exceed today’s IT compliance requirements,” said Scott McDaniel, CEO for Simple Helix. “This partnership integrates Abacode’s enhanced cybersecurity services with Simple Helix’s excellent managed services in a seamless way that [fully supports an organization’s entire cyber compliance journey.](#)”

The Simple Helix - Abacode partnership brings cybersecurity services forward for all interested clients, especially for companies that plan to implement transformational cybersecurity and compliance programs like the Cybersecurity Maturity Model Certification (CMMC).

“Abacode is constantly striving to push the technology industry forward by partnering with top notch leaders in the MSP space,” said Greg Chevalier, Senior Vice President – Partners and Sales

Strategy for Abacode. “Partnering with Simple Helix ensures that clients not only have their information technology operations humming along at peak efficiency with their managed services but now include Abacode’s full spectrum of cybersecurity solutions and services including managed cyber threat detection and response (MDR), governance, risk, and compliance (GRC), vulnerability assessments and digital forensics.”
