

Kombucha Tea Market Size Growth Of 8.6% by 2028, Share, Growth, Demand, Global Trends and Competitive Analysis

The global kombucha tea market generated \$2.3 billion in 2020, and is predicted to reach \$4.5 billion by 2028, manifesting a CAGR of 8.6% from 2021 to 2028.

PORTLAND, OREGON, UNITED STATES, April 19, 2023 /EINPresswire.com/ -- [Kombucha tea](#) is a fermented green tea or black tea, which is associated with a range of health-promoting benefits such as it helps to boost immunity and protects against cancer. Expansion of distribution channels such as online stores, supermarkets, hypermarkets, and food service has made kombucha tea easily available to customers, which, in turn, contributes toward the market growth. Moreover, ready-to-drink kombucha tea is one of the new trends gaining high traction in the global market.

The demand for kombucha tea is anticipated to rise during the forecast period, as it offers several health benefits to consumers. "

The outbreak of coronavirus has positively impacted the kombucha tea market along with all stages of supply chain and value chain. Owing to the COVID-19 outbreak, consumers have become more concerned about their overall health & wellness. This is attributed to the fact that they have acknowledged that COVID-19 is impacting their mental & physical well-being. This, in turn, is propelling the demand for wellness beverages, including kombucha tea, which is anticipated to boost the growth of the global kombucha tea market.

Key players of the global kombucha tea market analyzed in the research include Remedy Drinks, The Coca-Cola Company, Humm Kombucha, LIVE Kombucha Soda, Asheville Kombucha Mamas, LL, Marin Kombucha, PepsiCo, Inc., Toyo Kombucha, GT's Living Foods, and Brew Dr. Kombucha.

COVID-19 scenario:

The pandemic increased the awareness about their health and fitness. This has created a surge in a demand for kombucha tea across the globe, especially in North America.

Demand for functional beverages during the pandemic has motivated market players to boost

production to meet the demand.

However, poor transportation facilities and lack of workforce hindered the production and supply chains.
