“

We are excited to participate in The Ultimate DCIM and Technology Leadership Workshop, and to share our insights with other industry leaders.”

Jörg Hesselink, CEO of DC Smarter

As a participant, [Jörg Hesselink](#) will be sharing his insights on the critical role that DCIM plays in today's data centers, and how technology leadership can help organizations optimize their infrastructure for greater efficiency, resilience, and sustainability. At DC Smarter, we believe that DCIM is not just about monitoring and managing data center assets, but about unlocking the full potential of your infrastructure.

The workshop will explore key trends such as the growing importance of sustainability, the rise of edge computing,

and the increasing use of artificial intelligence and machine learning in data center management. Attendees will discover new solutions that are advancing data center management, and learn from real-world examples shared by other organizations. They will also witness customer demos showcasing AR/VR, machine learning, and other advanced tools that are being used to manage data centers more efficiently and effectively.

"We are excited to participate in The Ultimate DCIM and Technology Leadership Workshop, and to [share our insights](#) with other industry leaders," said Jörg Hesselink, CEO of DC Smarter. "DCIM is a critical component of any data center, and we look forward to discussing the latest trends and sharing best practices with other attendees."
