The latest news and trends for the construction, building and design community

SUNDRE, ALBERTA, CANADA, April 20, 2023 /EINPresswire.com/ -- Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content on the Internet, through social media and our popular Round Up News Magazine. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, videos and more.

Top videos include Boston Dynamics' Spot hard at work inspecting some of the 35,000 civil works components in Paris. With thousands of civil works to inspect each year, the RATP Group has turned to mobile robotics to inspect hard-to-reach and hazardous areas in order to keep employees out of harm's way.

The second video gives us a recent flyover of the construction progress on the Canadian side of the Gordie Howe International Bridge project, a once-in-a-generation undertaking that provides jobs and opportunities for growth to the Windsor-Detroit region.
