

Zalap Launches Outdoor Solar String Lights with Stunning Effects, Music Mode, and Color Customization

Zalap's waterproof solar string lights provides a versatile outdoor lighting solution

LOS ANGELES, CALIFORNIA, UNITED STATES, April 21, 2023

/EINPresswire.com/ -- [Zalap](#), a leading provider of sustainable outdoor lighting solutions, has announced the launch of their latest product, the [Outdoor Solar String Lights](#). These lights are set to transform the outdoor lighting market with their stunning light effects, music mode, and color customization options. The lights are eco-friendly, rechargeable via solar energy or Type-C charging, and perfect for creating a unique ambiance for outdoor gatherings or events.

The Outdoor Solar String Lights feature 33 LED lights that provide ample lighting for up to 6-8 hours after a full charge. They can produce various colors and effects that can be customized through the Zalap Home App, giving users control over their desired ambiance. Additionally, the lights come with a music mode, allowing users to synchronize their lights with their favorite tunes for the ultimate outdoor party experience.

Designed to withstand the elements, the Outdoor Solar String Lights have an IP65 waterproof rating, making them ideal for use in any weather condition. They are versatile and suitable for use in various outdoor settings, such as gardens, patios, camping trips, and hiking excursions.

"We're thrilled to launch the Outdoor Solar String Lights, which represent the next generation of outdoor lighting solutions," said a Zalap spokesperson. "Our customers will love the stunning light effects, music mode, and color customization options. These lights are eco-friendly, waterproof, and perfect for creating a unique outdoor ambiance."

About Zalap
