#### Definition:

Chicory is a plant that is grown for its roots, leaves, and flowers. The chicory market refers to the production, distribution, and consumption of various products that are derived from the chicory plant. The roots of the chicory plant are roasted and ground to make a coffee substitute or additive. Chicory root coffee has a bitter taste and is often mixed with regular coffee to create a unique flavor. It is also used as a natural sweetener and prebiotic fiber supplement.

#### Market Trends:

Increasing demand for natural and plant-based food and beverage products

#### Market Drivers:

Increasing health consciousness among consumers and rising demand for healthy food and beverage options

#### Market Opportunities:

Growing demand for chicory root extract in the dietary supplement and pharmaceutical industries
