

SignMyCode.com is Now Offering DigiCert Code Signing Certificates at Affordable Cost

Worldwide Renowned DigiCert Code Signing Certificate is now on SignMyCode! Now Get DigiCert Code Signing Certs at Lowest Price at SignMyCode, Trusted Reseller!

AUSTIN, TEXAS, UNITED STATES, April 20, 2023 /EINPresswire.com/ -- The world's biggest Code Signing reseller's product portfolio has increased to include DIGICERT® CODE SIGNING CERTIFICATES.

SignMyCode is proud to announce the addition of [DigiCert Code Signing Certificates](#) and DigiCert EV Code Signing Certificates to its suite of code signing products. With the addition of its world-renowned certificates, users can now enjoy the security of DigiCert's robust Digital Signing technology at unbeatable prices.

SignMyCode is one of the best Code Signing Certificate providers around the globe. Whether you need a regular code signing certificate or the highest level of authentication, such as an EV Code Signing Certificate, SignMyCode is your one-stop solution to get the best authentic and affordable code signing certificate.

DigiCert is the most reputed and world's biggest high-assurance certificate authority (CA) issuing digital security certificates globally. It's trusted by so many Fortune 500 companies and government and financial sectors and SMEs.

Whereas DigiCert Code Signing Certificates are one of the prominent digital certificates in the entire industry and are relatively expensive to some extent.

But SignMyCode, an all-in-one Code Signing Certificate provider, has brought DigiCert Signing Solutions at affordable cost.

Most significant platforms support the DigiCert Code Signing Certificate, which enables you to sign any code across multiple platforms includes:

- Microsoft Authenticode

- Microsoft Office VBA Signing
- Apple OS X
- Adobe AIR Signing
- Mozilla Signing
- Visual Studio
- Windows Phone Apps Signing
- Microsoft Office 365 Signing
- Brew Code Signing
- Java, JAR Files
- Windows 8 & 10 apps, Vista X64 kernel Mode, Windows Phone Apps

You can sign any executable file with a standard code signing certificate. But, for signing a driver for the operating system, you will need only [DigiCert EV Code Signing Certificate](#).

It helps you to bypass the Windows SmartScreen Defender check. In addition, it provides below benefits:

- Ability to sign OS Drivers and align with Microsoft Partner Center for Windows Hardware.
- An instant build-up of brand reputation across all major and minor digital platforms.
- Leverage to code sign any executable file, including .exe, .dll, .app, .ps1, and more.
- Timestamping of software, scripts, and drivers to maintain their legitimacy after expiration of the certificate.
- Issuance of the private key in a Hardware Security Module for better protection.

About SignMyCode:
