

# Learnt.ai Unveils New AI Powered Lesson Plan Builder

*Learnt.ai, a leading provider of AI-powered education solutions, has launched an AI powered Lesson Plan Builder.*

BIRMINGHAM, UNITED KINGDOM, April 21, 2023 /EINPresswire.com/ --

[Learnt.ai](#), a leading provider of AI-powered education solutions, has launched a ground-breaking new tool called the [Lesson Plan Builder](#). With this tool, education professionals can now create custom and downloadable AI-generated lesson plans, saving them valuable time and effort.

Developed by Learnt.ai, the Lesson Plan Builder takes the concept of AI-generated resources for education to the next level. In addition to creating a fully customized lesson plan, the tool also generates a supporting handout, a glossary of terms connected to the lesson, and their definitions, and some text for slides. This tool streamlines the lesson planning process, enabling teachers to focus on delivering engaging and effective lessons.

"Teachers have always been pressed for time, and the last couple of years has only exacerbated this issue," said David Law, founder of Learnt.ai. "Our goal is to give teachers their evenings and weekends back. While AI won't do everything, it can certainly take a 30-minute task and turn it into a 10-minute one, which can make all the difference."

The Lesson Plan Builder is the latest addition to Learnt.ai's suite of AI-powered education tools, which also includes homework assignment generators, essay question developers, and custom school report writers. These tools allow teachers to create high-quality resources quickly and easily, without sacrificing the personal touch that makes their work so impactful.

"We're thrilled to offer the Lesson Plan Builder to our users," said Law. "We believe it will be a game-changer for teachers who want to spend less time planning and more time teaching. With this tool, they can create lessons that are tailored to their students' needs, while still having the flexibility to make adjustments as they go."

The Lesson Plan Builder is available now on the Learnt.ai website, and users can try it out for free by signing up for a trial account.

“

Our goal is to give teachers their evenings and weekends back. While AI won't do everything, it can certainly take a 30-minute task and turn it into a 10-minute one, which can make all the difference.”

The screenshot shows the 'Lesson Plan Builder' interface on the Learnt.ai website. The left sidebar contains a form with the following fields: 'Lesson Topic' (The Moon Landing), 'Who are the Learners' (9 years old), and 'Lesson Duration' (40 minutes). The main content area displays a lesson plan for 'Exploring the Apollo 11 Mission: The Epic Moon Landing'. It includes sections for 'Learning Objectives', 'Materials Needed', 'Structure/Activity', and 'Adaptations'. The 'Structure/Activity' section lists four main activities: 1. Introduction (0 minutes), 2. Timeline Activity (15 minutes), 3. Video and Discussion (15 minutes), and 4. Wrap-Up and Review (10 minutes). Each activity includes specific instructions for the teacher and the students.

The Lesson Plan Builder can generate a lesson plan, resources and slide text.

The screenshot shows the 'Teaching & Delivery Tools' library on the Learnt.ai website. The interface features a search bar at the top right and a grid of tool cards. The tools include: 'Analogy Maker' (Make your point with an analogy!), 'Case Study' (Generate a random case study on a topic of your choice), 'Create A List Of...' (Create a list of things on a topic of your choice), 'Explain It To A Child' (Describe a topic of your choice in a way that will be easy to understand), 'Group Activity' (Generate ideas for a facilitated group activity to get the creative juices flowing), 'Ice Breakers (Face-to-Face)' (Generate an icebreaker activity for your in person, face-to-face course), 'Ice Breaker (Virtual)' (Generate an ice breaker activity for your virtual course), and 'Lesson Plan Builder (2nd Gen)' (Generate & download a lesson plan and supporting resources).

There are AI 65+ tools in the library, including a school report builder and a homework task generator.
