Convergence of advancements, beauty, and lifestyle
propels growth of the nutricosmetics market. Moreover,
the nutricosmetics market has witnessed continuous and
sustained growth over the years, owing to rise in beauty-
conscious female population. Several other factors such as

increase in female labor force, rise in awareness regarding maintaining prolonged beauty, and
change in lifestyle have significantly contributed toward growth of the nutricosmetics market.
Furthermore, demand for herbal and natural skin nutricosmetics products is anticipated to
increase at a substantial rate during the nutracosmetic market forecast period Hence, rise in
awareness regarding fashion and natural skin products significantly propels nutracosmetic
market growth.

Manufacturers are changing their product branding and advertising strategies to accelerate their sales across various countries. Innovative strategies such as new product launches with natural ingredients, regular nutricosmetics products, and innovative packaging have been adopted by manufacturing companies to increase sales of nutricosmetics products. As nutricosmetics have become an integral part of lives, consumers, especially women, prefer to use products, which are handy and easy to use while travelling or attending social meetings. Use of natural ingredients for manufacturing nutricosmetics products, which does not have any adverse effect on skin is a popular strategy of manufacturers to attract more customers. This also helps in increasing revenue of companies operating in this industry. Collectively, all these strategies adopted by manufacturers drive the global nutracosmetic industry.

The market in the Asia-Pacific offers lucrative nutracosmetic market opportunities for operating players, owing to presence of countries such as India, China, Australia, and New Zealand. Increase in adoption of western lifestyle, surge in population, and rise in disposable income of consumers majorly are the major nutracosmetic market trends. Moreover, increase in awareness regarding nutricosmetics products and its associated benefits have further augmented growth of the market.
