

Author Dean C. Gardner Continues to Explore the Power of Ideation and Time in New Book

Redeeming time past through a portal as time future erases time present

COOKSTOWN, NEW JERSEY, UNITED STATES, April 28, 2023

/EINPresswire.com/ -- Author Dean C. Gardner has released his latest book, "[The Calling](#)," which delves into the nature of ideation and its connection to time, taking readers on an adventure into the unknown, where the mind transcends the present and delves into the vertical column of time.

With already eight published titles that generally touch on postmodernism, Gardner continues to challenge readers to think deeply about the source of their thoughts and how they relate to the world around them in "The Calling." Through Gardner's exploration of the process of connectivity and juxtaposition, readers are led on a journey that explores the substance of ideation and its relationship to time.

Gardner draws from his studies with phenomenologist Dr. Campbell Tatham at the University of Wisconsin-Milwaukee, as well as the work of traditional haiku poets such as Basho, Bucson, and Issa. This combination has given Gardner a unique perspective on the poetic leap and its place in Western literature.

Gardner's vision of redeeming time past through a portal to a vertical column of time is a powerful one, and "The Calling" offers readers the opportunity to explore this concept in depth. With its thought-provoking ideas and unique perspective segmented into seven sections, "The Calling" is sure to be a must-read for anyone interested in the nature of thought and its connection to time.
