

Galeria Rodrigo Announces Release of NFT Marketplace, DApp, and AI Concierge for SoulDay NFT Minting Project

Galeria Rodrigo announces multiple releases for their SoulDay NFT minting project including a marketplace, minting application release, and AI concierge.

USA, April 27, 2023 /EINPresswire.com/ -- [Galeria Rodrigo](#) announces multiple releases for their [SoulDay](#) NFT minting project including a marketplace, minting application release, and AI concierge. The flagship website for the project, <https://soulday.io>, now includes three unique offerings: mint, shop, and chat.

Galeria Rodrigo has not released an official public mint date for the project, but anticipates an announcement later this summer. "We've been in stealth-mode for a long period of time," states lead developer and AI scientist, Cid Rodrigo. "SoulDay is a massive project that will span years."

SoulDay #22 - NFT Minting Project

Among the latest developments is a new minting application release. SoulDay's minting application is fully integrated with Web3Modal's popular WalletConnect. Per the contract, users can mint up to 25 NFTs per wallet address. Public minting opens soon at <https://mint.soulday.io>.

“

We've been in stealth-mode for a long period of time.”

Cid Rodrigo

In conjunction with public minting, the company has unveiled SoulDay's marketplace; hosted by popular NFT marketplace, Rarible.com. The marketplace will allow

holders to view NFTs upon mint, and later trade with fellow holders once public minting opens.

SoulDay's marketplace is located at <https://shop.soulday.io>.

Lastly, Galeria Rodrigo announces the release of Marco, SoulDay's new AI concierge. Marco is, in essence, a digital, artificial intelligence chat concierge designed to help users learn about the project. As natural language processing (NLP) advances, so will Marco's responsibilities within the company. Marco's address is <https://chat.soulday.io>.

The company has released a variety of articles and how-to guides including their most recent "All Digital IDs are Not Created Equal" designed to highlight considerations one should make prior to buying NFTs for the purpose of digital identification.
