CPT Markets has made it easy for everyone to start trading, as they only require a capital investment and no minimum required deposit. Also, the processes are designed as per the FCA regulations, and every data transaction gets stored in encrypted form. In addition, there are also various measures to protect its loyalists from online frauds: anti-money laundering policies, Know Your Customer protocols to prevent identity theft, a competitive fee structure, low SWAP/SPREADS fees, 50 currency pairs for forex, permission to trade indices across the globe, and giving access to 120 stocks from global markets. Also, there is a leverage of 1:500, which means that the traders have the best opportunity to get profits from small
