Immunotherapy Drugs  
Market Size – USD 189.00  
Billion in 2021, Market  
Growth – at a CAGR of  
11.8%”

*Emergen Research*

The global immunotherapy drugs market is projected to be reach USD 365.57 Billion by 2027, according to a current analysis by Emergen Research. The global market for immunotherapy drugs is anticipated to expand significantly during the forecast period, due to increasing global cancer incidence. Cancer is the world's second-largest reason of mortality. It was liable for an estimated 9.6 million fatalities in 2018. Approximately 1 in 6 mortalities was attributed to cancer worldwide. The

increasing adoption of personalized treatment over conventional treatment is likely to boost the global immunotherapy drugs market during the forecast period. Rise in the incidence of lifestyle-related disorders is expected to propel the global immunotherapy drugs market during the forecast timeline. In case of hospital treatment, several lifestyle disorders, such as obesity, hypertension, diabetes, and insomnia, require intensive care. Therefore, one of the key factors

driving the market for immunotherapy drugs is increase in the rate of disorders and related conditions.

Some Key Highlights From the Report

The cancer segment accounted for a significant revenue share in 2021 owing to growing prevalence of cancer, increased R&D activities by major pharmaceutical companies, surge in

number of clinical trials, and rising number of drug approvals.

According to research, by 2040, global burden is expected to reach 28.0 million new cancer cases and 16.2 million cancer deaths, primarily owing to growth and aging of population.

The monoclonal antibodies segment accounted for largest revenue share in 2021 owing to high specificity and fewer side-effects.

Furthermore, increased government initiatives and research on therapeutic monoclonal antibodies are driving market revenue growth. Monoclonal antibodies are intended to work in the same way as patient's antibodies, which recognize and bind to cancer cells, allowing immune system to target and eliminate cancer cells.

#### Market Segmentation Analysis

Players can concentrate on high-growth regions and, if necessary, modify their business plan according to the research report. The Immunotherapy Drugs Market is divided into a variety of categories, uses, and geographical areas. Players gain from the report's regional segmentation research since it offers pertinent data and insights into important geographic marketplaces.

#### Drug Type Outlook (Revenue, USD Billion; 2017–2027)

Checkpoint Inhibitors

Monoclonal Antibodies

Vaccines

Interleukins

Interferons Alpha and Beta

Others

#### Therapeutic Area Outlook (Revenue, USD Billion; 2017–2027)

Infectious Diseases

Autoimmune & Inflammatory Diseases

Cancer

Others

#### COVID-19 Impact Analysis

The post-COVID-19 phase has undergone substantial change, and Immunotherapy Drugs Market research highlights the opportunities and difficulties that still exist. This study report thoroughly examines the effects of the COVID-19 pandemic on the global economy and post-pandemic market behaviour.

#### Regional Outlook

We carefully examined each division, regional classification, national study, and subject-specific data set during the market research. This Immunotherapy Drugs Market research report's goal is

to look at growth patterns, promising futures, important obstacles, and expected results. Information on significant market participants, strategic alliances, plans, new product launches, and joint ventures are all included in the research.

## Research Methodology

Emergen Research follows a cohesive methodology to reduce the residual errors to a minimum level by refining the scope, validating through primary insights, and nurturing the in-house database on a regular basis. A dynamic model is formulated to capture the regular fluctuations in the market and thereby, being updated with any shifts in the market dynamics.

## SECONDARY RESEARCH MODEL

Extensive data is obtained and cumulated on a substantial basis during the inception phase of the research process. The data accumulated is consistently filtered through validation from the in-house database, paid sources, annual report of companies, SEC filings, government press release, pricing databases and many more.

## Key Reasons to Purchase Immunotherapy Drugs Market Report

The reader will be in a position to comprehend and react to marketing strategies like using strengths and conducting a SWOT analysis.

The research looks into the dynamics of the target market and how the conflict between Russia and Ukraine has affected it.
