EINPRESSWIRE

Artificial Intelligence in Digital Genome Market to Surpass US$ 3,601.7 Million by 2030 | IBM, Microsoft, Deep Genomics

SEATTLE, WASHINGTON, UNITED STATES, April 24, 2023 /EINPresswire.com/ -- New Report by Coherent Market Insights, titled "Artificial Intelligence in Digital Genome Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2023-2030," offers a comprehensive analysis of the industry, which comprises insights on the Artificial Intelligence in Digital Genome market analysis. The report also includes competitor and regional analysis, and contemporary advancements in the market.

AI In Digital Genome Market

This 130+ Pages report has a complete table of contents, figures, tables, and charts, as well as insightful analysis. The Artificial Intelligence in Digital Genome market has been growing significantly in recent years, driven by a number of key factors, such as increasing demand for its products, expanding customer base, and technological advancements. This report provides a comprehensive analysis of the Artificial Intelligence in Digital Genome market, including market size, trends, drivers and constraints, Competitive Aspects, and prospects for future growth.

"

The global artificial intelligence in digital genome market is estimated to be valued at US$ 269.8 million in 2022 and is expected to exhibit a CAGR of 44.8% during the forecast period (2023-2030)."

Coherent Market Insights

The purpose of the market research study is to thoroughly investigate the industry in order to gain knowledge of the industry and its economic potential. As a result, the client has a complete knowledge of the market and business from past, present, and prospective aspects enabling them to allocate resources and investing money wisely.

Our Sample Report May Includes:

 Scope For 2023

 Brief Introduction to the research report.

 Table of Contents (Scope covered as a part of the study)

 Top players in the market

 Research framework (structure of the report)

 Research methodology adopted by Coherent Market Insights

Competitive Landscape:

The report provides a detailed analysis of the competitive landscape of the Artificial Intelligence in Digital Genome market, including market share of key players, their competitive strategies, and recent developments. The major players operating in the market include

NVIDIA Corporation, IBM, Microsoft, Fabric Genomics Inc., Verge Genomics, MolecularMatch Inc., SOPHiA GENETICS, PrecisionLife Ltd, BenevolentAI, and Deep Genomics

These companies are focusing on new product development, partnerships, collaborations, and mergers and acquisitions to increase their market share and maintain their position in the market.

Market Segmentation

This report has explored the key segments: by Type and by Application. The lucrativeness and growth potential have been looked into by the industry experts in this report. This report also provides revenue forecast data by type and by application segments based on value for the period 2023-2030

By Offering: Software, Services
By Technology: Machine Learning, Computer Vision
By Functionality: Genome Sequencing, Gene Editing
By Application: Diagnostics, Drug Discovery & Development, Precision Medicine, Agriculture & Animal Research, Other Applications
By End User: Pharmaceutical & Biotech Companies, Research Bodies

The following are the study objectives for this report:

SWOT Analysis focuses on worldwide main manufacturers to define, assess, and analyze market competition. By kind, application, and region, the market is defined, described, and forecasted.

 Examine the market potential and advantage, opportunity and challenge, constraints and risks.

 Determine whether trends and factors are driving or limiting market growth.

 By identifying high-growth categories, stakeholders would be able to analyze market potential.

 Conduct a strategic study of each submarket's growth trends and market contribution.

 Expansions, agreements, new product launches, and acquisitions in the market are all examples of competitive developments.

 To create a strategic profile of the main players and analyse their growth plans in depth.

Research Methodology:

Research Objectives: This section outlines the overall goals of the research study, including the research questions and hypotheses that will be addressed.

Research Design: This section describes the overall research design, including the research approach (e.g., quantitative, qualitative, mixed-methods), data collection methods (e.g., surveys, interviews, focus groups), and sampling strategy (e.g., random sampling, stratified sampling).

Data Collection: This section outlines the process used to collect data, including the sources of data (primary, secondary), the data collection instruments (e.g., survey questionnaire, interview guide), and the data collection procedures (e.g., data cleaning, coding, entry).

Data Analysis: This section describes the analytical methods used to analyze the data, such as statistical tests, qualitative coding, or content analysis.

Limitations: This section outlines the limitations of the study, including any potential biases, sources of error, or limitations in the data.

Ethical Considerations: This section describes any ethical considerations that were taken into account during the research process, such as obtaining informed consent from participants, protecting participant confidentiality, and minimizing any potential harm to participants.

Report Scope:

⬚ This report segments the Artificial Intelligence in Digital Genome market comprehensively and provides the closest approximations of the revenues for the overall market and the sub-segments across different verticals and regions.

⬚ The report helps stakeholders understand the pulse of the Artificial Intelligence in Digital Genome market and provides them with information on key market drivers, restraints, challenges, and opportunities.

⬚ This report will help stakeholders to understand competitors better and gain more insights to better their position in their businesses. The competitive landscape section includes the competitor ecosystem, new product development, agreement, and acquisitions.

Purchase This Premium Research Report : https://www.coherentmarketinsights.com/insight/buy-now/4824

Reasons to Buy this Report:

⬚ Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

⬚ Recognize emerging players with potentially strong product portfolios and create effective counter-strategies to gain a competitive advantage.

⬚ Classify potential new clients or partners in the target demographic.

⬚ Develop tactical initiatives by understanding the focus areas of leading companies.

⬚ Plan mergers and acquisitions meritoriously by identifying Top Manufacturers.

⬚ Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and Scope.

⬚ The report will be updated with the latest data and delivered to you within 2-4 working days of order.

⬚ Suitable for supporting your internal and external presentations with reliable high-quality data and analysis.

Table Of Contents:

⬚ Chapter 1: Overview of Artificial Intelligence in Digital Genome market

Chapter 2: Market status and forecast by regions

 Chapter 3: Market status and forecast by types

 Chapter 4: Market status and forecast by downstream industry

 Chapter 5: Market driving factor analysis

 Chapter 6: Market competition status by major manufacturers

 Chapter 7: Major manufacturer's overview and market data

 Chapter 8: Upstream and downstream market analysis

 Chapter 9: Cost and Gross Margin Analysis

 Chapter 10: Market status analysis

 Chapter 11: Conclusion

 Chapter 12: Research Findings and Reference

About Us:

Coherent Market Insights is a global market intelligence and consulting organization focused on assisting our plethora of clients achieve transformational growth by helping them make critical business decisions. We are headquartered in India, having sales office at global financial capital in the U.S. and sales consultants in United Kingdom and Japan. Our client base includes players from across various business verticals in over 57 countries worldwide. We create value for clients through our highly reliable and accurate reports. We are also committed in playing a leading role in offering insights in various sectors post-COVID-19 and continue to deliver measurable, sustainable results for our clients.
