The Search Engine Revolution: From Past to Present and Beyond

London, UK- Maria Johnsen, a renowned multilingual digital marketing expert, author, filmmaker and CEO of Golden Way Media, has released her latest book, "[The Search Engine Revolution: From Past to Present and Beyond](#)." This book is the result of Maria's extensive research, personal reflections, and innovative ideas concerning search engines.

“

Maria Johnsen published 43 fiction and non fiction books.”

Jane Larsen

"The Search Engine Revolution" takes readers on a journey through the early days of search engines, tracing their evolution to the present day and beyond. Maria delves into the development of search engines since the early days of

the internet, including her predictions for their future.

Maria also provides detailed algorithms, documentations, and case studies on utilizing the new generation of AI search engines and her own new type of search engine. This book is intended for research, PhD students, and academics, serving as a continuation of her earlier work, "Artificial Intelligence in Digital Marketing - The Next Big Technological Break," which was published in 2017.

Maria's book is an essential read for anyone interested in search engines and their impact on digital marketing. She provides a unique perspective on the industry and offers valuable insights

that can help businesses stay ahead of the curve.

In her own words, Maria Johnsen says, "I am excited to share my research and insights on the evolution of search engines and their impact on the digital marketing industry. With 'The Search Engine Revolution,' I hope to provide valuable information and predictions to help businesses stay ahead in the constantly evolving world of search engines."

"The Search Engine Revolution: From Past to Present and Beyond" is available for purchase now on Amazon and other major book retailers in Europe, North America, Japan, Australia, South America and South Africa.
