The market is segmented by Application (Public Sector, Private Sector, Stand-Alone Insurers) by Type (Short-Term Health Insurance, Gap Insurance, Accident, Critical Illness, Telemedicine) by Plans (Health maintenance organizations (HMOs), Preferred provider organizations (PPOs), Exclusive provider organizations (EPOs), High-deductible health plans (HDHPs)) and by Geography (North America, South America, Europe, Asia Pacific, MEA).

Definition:

Health Insurance is policy against medical and surgical expenses provided by the insurance company to the member who has taken that policy. This policy can be applied in two ways that provides repayment of the expenditure incurred due to illness or pays a specific amount directly to care provider. Expenses are paid to the member as per the benefits decided in the insurance agreement. Increasing medical care expenses and rapid growth of chronic diseases among population fuels the growth of the health insurance market.

Market Trends:

- increasing transparency in terms of insurance
- integrating solutions through data analytics and modeling techniques

Market Drivers:

- increasing number of individuals with high income
- health security standards advancement
- rising chronic diseases among population
- increasing medical care expenses

Market Opportunities:

- digitization in accessing policies
- improving disposable income

Revenue and Sales Estimation — Historical Revenue and sales volume are presented and further data is triangulated with top-down and bottom-up approaches to forecast complete market size and to estimate forecast numbers for key regions covered in the report along with classified and well-recognized Types and end-use industry.
