

The reason Aviation Organisations take on their Regulatory Training Journey with Sofema Online

*Why are organisations choosing Sofema Online for their Regulatory Training?
Sofema provides the answer*

SOFIA, BULGARIA, April 25, 2023
/EINPresswire.com/ -- Here is a Hypothetical Question:

Why is Company A head and shoulders above Company B? (Based on a True Story and Correct Price Comparisons)

The Story Begins

Well, let's consider each company has a budget of 10,000 EUR/year for EASA-compliant Regulatory and Vocational Training.

Company B

Company B is focused on ensuring the management of competence of its key staff and enrolls a manager on a 2-day virtual training course with a Sofema Online (SOL) competitor for a fee of 1277 EUR for the 2-day course.

So with a single person, they have used up 12,5% of the budget for a 2-day training – which means they can train 8 people in 1 year for the allocated budget.

Company A

Company A is also focused on managing competence, but across the whole workforce (not just a select few) and has been using Sofema Online for quite some time (Company A is not alone – last year SOL enrolled over 24,000 delegates).

Company A has now enrolled in the [Sofema Online Corporate Freedom Pass Program \(CFP\)](#)

Choosing the product CFP 10 means that Company A pays 850 EUR/Month but for this amount, they have 10 concurrent licenses to access the SOL system for 1 whole year.

They can nominate their own Account Manager that is able to directly enroll staff on any of the 300+ courses. As soon as each person completes the assigned program, the Account Manager can enroll the next one and so on with no limitation other than the number of licences assigned to the company.

What a Comparison – Almost 100 to 1!

For the fees paid by Company B for 16 Days of Training Company A Managed to achieve 1600 Completed Training Days (Yes 100 times more !!!)

Are you a Company A or Company B person?

Our sister company Sofema Online provides over 300 Courses, Packages and Diplomas to choose from – Company A managed to build competence on a continuing basis across its entire workforce

Company B trained only 8 people on only 1 single course for the same expenditure
