

Learn About Maximizing Business Value From Data at WWDVC 2023

DataVaultAlliance Announces New Session at World Wide Data Vault Consortium 2023

ST. ALBANS, VERMONT, UNITED STATES, April 25, 2023 /EINPresswire.com/ -- [DataVaultAlliance](#) is excited to announce yet another session at the upcoming World Wide Data Vault Consortium (WWDVC) 2023 conference. This annual event, which will take place during the first week of May in Stowe, Vermont, USA, brings together data professionals from around the world to share knowledge, exchange ideas, and network with like-minded individuals.

At [WWDVC 2023](#), attendees will have access to a range of informative sessions and networking opportunities.

One of the highly anticipated sessions is "From Data to Business Value: Let's Get This Right" presented by Kim Worsham, a seasoned data strategy consultant and certified [Data Vault 2.0](#) practitioner. According to a spokesperson for WWDVC, attendees of this session can expect to:

1. Learn how to extract meaningful insights from data and generate business value.
2. Gain practical insights and techniques for data modeling and visualization.
3. Hear real-life examples of how other organizations have derived business value from data.
4. Get tips for effectively communicating data insights to stakeholders.
5. Learn from a seasoned data strategy consultant and certified Data Vault 2.0 practitioner.

WWDVC 2023 will also feature presentations on data vault modeling, data quality, data governance, machine learning, and other topics. Attendees will have ample opportunities to network with fellow data professionals, consultants, and vendors, and gain a better
