Speaker  
**David Croteau**  
Founder, Stoneyard

Free Training Course on Installing Natural Stone Veneer

The two-hour course takes place on Thursdays from 10am – 12pm online. It covers important topics such as proper installation methods, using the LATICRETE® MVIS system to install natural stone, trimming and fitting techniques, pre-cut corners, when and how to mitre a non-90 degree corner, and examples of finished projects. Participants will also learn how to educate their customers about the benefits of natural stone thin veneer.

“

Our team at Stoneyard is committed to supporting natural stone veneer installers by providing them with access to industry-leading training programs like this one.”

*David Croteau*

David Croteau, Founder of Stoneyard.com, said, "We are excited to offer this free certification course to masonry professionals who want to enhance their skills in installing

natural thin stone veneers. Our goal is not only to provide quality products, but also help our partners achieve success by providing them with the skills they need."

Participants who complete the program will receive a Stoneyard Installer Certificate that demonstrates their knowledge and training in installing natural thin stone veneers. Each participant will receive a Certification badge to place on their website with a link to a [dedicated](#)

[installer page](#) on Stoneyard.com featuring photos of their work.

"We believe that education is key when it comes to delivering high-quality workmanship," added Croteau. "Our team at Stoneyard is committed to supporting natural stone veneer installers by providing them with access to industry-leading training programs like this one."
