Based on type, the market can be is bifurcated segmented into:

- Organic
- Synthetics

On the basis of composition, the market has been is classified into:

- Potassium Chloride
- Potassium Hydroxide
- Potassium Thiosulfate

- Others

Based on crop type, the market has been segmented classified into:

- Pulses and Oilseeds
- Cereals and Grains
- Fruits and Vegetables
- Others

Based on application, the market has been classified divided into:

- Broadcasting
- Foliar
- Fertigation
- Others

Based on On the basis of country, the market has been is classified categorised into:

- United States
- Canada
- Mexico

#### North America Liquid Potassium Fertilizers Market Trends

The key trends in the North America liquid potassium fertilizers market include rising advancements in the technology used in the agricultural sector, rapid urbanisation, and changing diet preferences of the consumers, among other factors. People are preferring to consume more fruits and vegetables to cope up with improve their diets in spite of a busy schedules which is increasing the demand for the same fruits and vegetables, resulting in boosted agriculture plantation areademand. This will would lead to an increasing use and demand for liquid potassium fertilizers and pesticides in North America.

The use of liquid potassium fertilizers The helps in development of administrative systems helps in managing the fertigated agricultural area efficiently which also reduces the operational cost through the effective use of the potassium liquid fertilizer. Increased focus of the governments of North America in the region on the agricultural sector is leading to the development of such optimised techniques and in also enhancing the increased knowledge awareness of among the people especially farmers and consumers in the region.

Several agriculture-based product manufacturing companies are expanding in the region by benefitting from the and investing in improved extensive research and development mechanismsactivities. Moreover, availability of better and advanced agriculture machineries for cultivation in vast arable lands is further increasing the use of quality fertilizers and pesticides

thus, aiding in the growth of the North America liquid potassium fertilizers market.

## Key Market Players

The major players in the North America liquid potassium fertilizers market report are:

- The Mosaic Company
- Koch Industries Inc.
- AgroLiquid
- Oxiteno
- Nutrein
- Nufarm
- Nachurs Alpine Solutions LLC
- Others

The report covers the market shares, capacities, plant turnarounds, expansions, investments and mergers and acquisitions, among other latest developments of these market players.
