

CybeReady Wins Coveted 2023 Global InfoSec Award for Best Security Training Platform

11th Annual Global InfoSec Award Ceremony Take Place at #RSAC 2023

SAN FRANCISCO, CA, UNITED STATES, April 26, 2023 /EINPresswire.com/ -- [CybeReady](https://www.cyberready.com), a global leader in security awareness training software, today announced that the company has been named a winner in the 2023 Global InfoSec Awards for Best Security Training Award. The ceremony for the awards is produced by Cyber Defense Magazine (CDM) and will be held at the 2023 RSA Conference in San Francisco.

The CybeReady Cybersecurity Awareness Training platform offers a personalized and automated approach to training employees on how to identify and respond to cyber threats. One of the key innovations of CybeReady is its use of artificial intelligence (AI) and machine learning algorithms to create personalized training programs for each employee based on their learning style and knowledge level. This ensures that employees receive training that is tailored to their individual needs and helps them retain information more effectively. The platform also uses gamification techniques to make the training process engaging and fun, increasing employee participation and reducing the risk of cybersecurity incidents caused by human error.

“We scoured the globe looking for cybersecurity innovators that could make a huge difference and potentially help turn the tide against the exponential growth in cyber-crime. CybeReady is absolutely worthy of this coveted award and consideration for deployment in your environment,”

said Yan Ross, Editor of Cyber Defense Magazine.

The InfoSec Award judges are CISSP, FMDHS, and CEH certified security professionals who voted based on their independent review of the company submitted materials on the website of each submission including but not limited to data sheets, white papers, product literature and other market variables. CDM has a flexible philosophy to find more innovative players with new and unique technologies, than the one with the most customers or money in the bank. Cyber Defense Magazine is always asking "What's Next?" so we are looking for best of breed, next generation InfoSec solutions.

"Receiving this recognition from such a distinguished panel of judges is truly an honor and a testament to our unwavering commitment to providing top-notch cybersecurity training solutions to our clients," said Eitan Fogel, CEO of CybeReady. "We are thrilled to be recognized among the best in the industry and look forward to continuing to lead the charge in the fight against cyber threats."
