*Complimentary Flash Webinar Open to the Public on May 4, 2023 at 1PM Eastern*

MINNEAPOLIS, MN, USA, April 26, 2023 /EINPresswire.com/ -- Setting the global standards for e-discovery, the Electronic Discovery Reference Model (EDRM) is pleased to announce a new

flash webinar in their series “Ripped from the Headlines” called “Proving the Facts: A Fireside Chat with Bob Zeidman on Winning the My Pillow CEO's Challenge.”

Setting the global standards for e-discovery

“

I've dedicated my forensic career to uncovering truth, regardless of the consequences...Nothing feels better than righting a wrong, particularly of this importance.”

*Bob Zeidman, founder of Zeidman Consulting*

The flash webinar with Bob Zeidman, the renowned software expert, and founder and president of [Zeidman Consulting](#), will be a discussion on how he won the "Prove Mike Wrong Challenge" initiated by My Pillow CEO Mike Lindell. Lindell offered a \$5 million reward to anyone who could prove that the data he released related to the U.S. 2020 election was invalid.

The politically neutral conversation will focus on the role of the forensic engineer in proving facts in this high profile case with challenging, unique data from election systems.

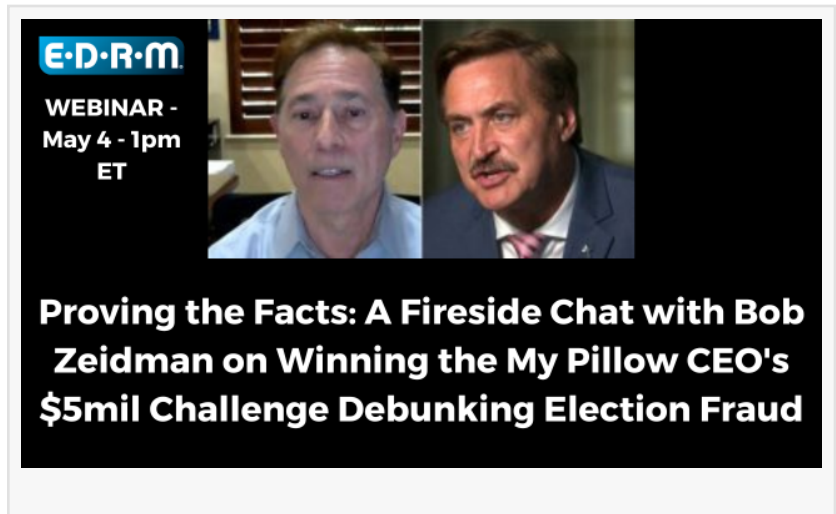

“Election related cases are progressing through the courts, and because the systems need to be robust, trusted and secure, there is high interest in the data which can be extracted, authenticated and admitted into evidence,” said Mary Mack, CISSP, EDRM CEO and chief legal technologist. “EDRM is grateful to Bob Zeidman for sharing his process that resulted in a decisive outcome underscored by a \$5m payday.”

“I've dedicated my forensic career to uncovering truth, regardless of the consequences. This time it led to quashing a myth in American politics and may have significance in the upcoming

presidential election,” said Bob Zeidman, founder of Zeidman Consulting. “Nothing feels better than righting a wrong, particularly of this importance.”
