

# American IRA Discusses How A Self-Directed IRA Helps Investors Diversify

*Is diversification one of the key benefits of a Self-Directed IRA? American IRA recently released a post examining this question.*

ASHEVILLE, NORTH CAROLINA, USA,  
April 29, 2023 /EINPresswire.com/ --

Recent events in the stock market and the world of banking have investors on edge. And no wonder. It can be difficult

to invest without knowing what the future holds. That's why American IRA recently released a [post](#) about diversification, and whether a Self-Directed IRA might be an ideal tool for investors who want to diversify a retirement portfolio beyond the typical choices of stocks and bonds.

In the most recent American IRA post, the Self-Directed IRA administration firm started off by defining what a Self-Directed IRA is. This is important because it helps establish what a Self-Directed IRA can do. Many retirement investors may not know that it's possible to use the tax protections of a retirement account on more than just stocks and bonds. Investors who want a broader range of retirement assets—and retirement asset classes—within the same account can do so with the benefit of the tax protections that come with an IRA. It just requires that these investors know how to do so.

That's where American IRA developed these ideas a little further. In the post, American IRA explained how investors can have access to a wider range of investment options through a Self-Directed IRA. It also explored the benefits of diversification. With diversification, the goal for investors is typically to spread risk around appropriately. Rather than going all-in on one stock or one type of investment, an investor can include a broader range of those investments or asset classes. In times of economic turmoil it can be useful to have more eggs in a broader range of baskets.

American IRA took its readers through other elements of the Self-Directed IRA, including how these can help diversify a portfolio—not to mention the potential risks of investing this way. Finally, American IRA wrapped up with a summary that explained why these IRAs can be such powerful tools for investors.

About:

"American IRA, LLC was established in 2004 by Jim Hitt, Founder in Asheville, NC.

The mission of American IRA is to provide the highest level of customer service in the self-directed retirement industry. Jim Hitt and his team have grown the company to over \$600 million in assets under administration by educating the public that their Self-Directed IRA account can invest in a variety of assets such as real estate, private lending, limited liability companies, precious metals and much more.

As a Self-Directed IRA administrator, they are a neutral third party. They do not make any recommendations to any person or entity associated with investments of any type (including financial representatives, investment promoters or companies, or employees, agents or representatives associated with these firms). They are not responsible for and are not bound by any statements, representations, warranties, or agreements made by any such person or entity and do not provide any recommendation on the quality profitability or reputability of any investment, individual or company. The term "they" refers to American IRA, located in Asheville and Charlotte, NC."
