Matthew Moghaddam

Drawing from over 30 years of experience in medicine and information technology, Matthew Moghaddam has designed a telemedicine platform that seamlessly integrates advanced AI technology and medical devices for remote patient vital signs monitoring. The platform includes a pulse oximeter, thermometer, blood pressure monitor, and medical scale, enabling physicians to conduct comprehensive evaluations and provide better care to patients.

"TeleMedConnects's mission is to ensure that everyone, regardless of location or financial status, has access to quality healthcare," says Matthew, the founder of TeleMedConnects. "By leveraging cutting-edge technology and user-friendly interfaces, we aim to make healthcare services more accessible, affordable, and efficient."

experience, enhancing the quality of care delivered through the platform.

Matthew's success is driven by his passion for entrepreneurship and his commitment to the trifecta of business indicators: revenue, customer satisfaction, and employee happiness. Inspired by Steve Jobs' relentless pursuit of innovation, Matthew continually pushes the boundaries of what's possible in the telemedicine

industry.

In addition to his professional accomplishments, Matthew is a proud father of special-needs sons, who inspired him to pivot from medicine to information technology. He credits his family as a driving force behind his entrepreneurial endeavors and commitment to improving healthcare access.

To maintain focus and stay inspired, Matthew sets goals, manages his time effectively, and maintains a healthy work-life balance by delegating tasks and prioritizing self-care. He encourages aspiring entrepreneurs to embrace lifelong learning, build strong networks, and stay adaptable in the face of change.

Outside of his professional life, Matthew enjoys spending time with family and friends, cherishing the moments that help him recharge and refocus on his mission to improve healthcare access worldwide.

TeleMedConnects is entering the market with an impressive estimated valuation of \$800 million and is actively seeking to onboard doctors across the nation. This innovative telemedicine platform is poised to revolutionize the healthcare industry and improve the lives of millions of patients.
