Deep Tissue Massage is a therapeutic massage that uses firm pressure and slow strokes to target deeper layers of muscle and fascia. It is effective in relieving chronic muscle tension and pain, improving flexibility and range of motion, and reducing stress and anxiety.

Swedish Massage is a gentle, full-body massage that uses long strokes, kneading, and circular movements on the topmost layers of muscles. It is designed to promote relaxation, increase circulation, and relieve muscle tension.

Couples Massage is any of our massage therapies for but two!

Hot Stone Massage is a luxurious massage that uses smooth, heated stones to warm and relax muscles, allowing for deeper pressure to be applied. It is effective in reducing muscle tension, promoting relaxation, and relieving pain.
