Alvaro Pereira*

The package purchase includes a sizeable amount of aircraft engine material. The lots are comprised of 29,000 CF6-80C2 parts, 23,000 PW4000 parts, 17,000 CFM56 parts, and 4,000 V2500 parts. The remaining lots include 15,000 mixed Boeing and Airbus airframe parts. Material is comprised of various conditions that include OH, SV, AR, NE, and NS.

This new inventory acquisition marks a significant milestone for AMP Aero Services, reflecting the massive growth that the company has undergone in the past six

months. In addition, acquiring a large inventory as such demonstrates AMP Aero Services' commitment to providing the highest quality service and reliability for its customers.

"We are thrilled to announce this major inventory purchase," said Alvaro Pereira, Founder of AMP Aero Services. "This enables us to better serve our customers, providing them with the parts they need when and where they need them. It also reflects our commitment to investing in the future of our company and the aviation industry as a whole."

As part of its strategic initiatives, AMP Aero Services is committed to increasing capabilities and service offerings. This inventory acquisition reaffirms the AMP Aero Services mission. With a

focus on quality and customer satisfaction, the company has become a trusted partner for airlines, MROs, and other industry partners. "We are proud to continue our growth and investment in our key platforms," said Pereira.

The inventory will be available for purchase in the next 30-45 days and will be positioned in Miami and Arkansas.
