We are your source of first-hand and updated information about the US EB 5 Immigrant Visa Program. EB5 BRICS aims to build strong relationships with clients before engaging in business and discussing projects for investment immigration.

About the EB-5 Immigrant Investor Visa for Indians

The EB5 Visa Program was established by the U.S. Congress through the Immigration Act of 1990 to promote U.S. economic growth and enable foreign investors to obtain a USA Green Card. The EB-5 Regional Center Program was created in 1992 as an alternative to direct investments and

has been reauthorized under the 2022 Reform and Integrity Act (RIA). The main requirements for Indian EB5 investors include a minimum investment of \$800,000 USD (approx INR 6.1 cr) or \$1.05 million USD (approx INR 8.3 cr) depending on the geographical area and the creation of at least 10 full-time jobs for U.S. workers.

The EB 5 Investor Visa is a direct route to US Permanent Residency that allows immigrant investors and their families to live, work, and study indefinitely in the United States. Wealthy Indian parents are allowed to “gift” the EB-5 investment funds to their children enabling them to enjoy lower tuition fees and better career opportunities as Green Card holders.
