GPX Global Systems Inc.*

GPX has established itself as the leading high-availability, carrier-neutral data center provider in Egypt and is recognized for its outstanding customer service and its 99.999% uptime guarantee. GPX provides colocation to the largest enterprise customers in Egypt and the region.

The GPX Cairo 2 expansion will be a Rated-4 certified purpose-built facility with 12MW of power and support for

high power density applications and 52U cabinets, along with rich interconnectivity. Phase one of the expansion will be customer ready early the first quarter of 2025.

H.E. Dr. Amr Talaat commented: "The data center industry is a major building block in our Digital Egypt Strategy. The Ministry of Communications and Information Technology (MCIT) is adamant to create an attractive environment for investments in the data center industry. Egypt's geographical location, coupled with its extensive global submarine cable partnerships, and resilient local infrastructure are all conducive to its prominence in this industry, and we're working to further build upon these advantages."
