Inc, a new non-profit organization based in Arizona, is revolutionizing the world of candle repurposing by transforming used bottles sourced from local bars and hotels into luxury repurposed candles. The organization's mission is to encourage businesses in the service industry to recycle their empty bottles, thus helping to reduce waste and protect the environment.

By creating luxury candles in AZ from locally recycled bottles, Recycle Responsibly is not only promoting sustainable practices but also fostering a sense of community connection.

Each candle, handcrafted from repurposed champagne and liquor bottles, is a unique, artisanal product that embodies the organization's commitment to sustainability and a circular economy.

Recycle Responsibly is dedicated to raising awareness in Arizona that unnecessary waste is easily avoidable. They collaborate with local bars, hotels, and other retail locations to create a network of eco-conscious businesses working together to reduce waste and promote a greener Arizona.

The organization's innovative recycling candles initiative resonates with the increasing number of consumers who prefer sustainable, ethically sourced products that positively impact the environment. Through its mission, Recycle Responsibly seeks to inspire other communities and industries to adopt similar sustainable practices.
