HTF Market Intelligence published a new research publication on Enterprise Performance Management (EPM) Software Market Insights, to 2028" with 150+pages and enriched with self-explained Tables and charts in presentable format. In the Study you will find new evolving Trends, Drivers, Restraints, Opportunities generated by targeting market associated stakeholders. The growth of the Enterprise Performance Management (EPM) Software market was mainly driven by the increasing R&D spending across the world, however latest scenario and

economic slowdown have changed complete market dynamics. Some of the key players profiled in the study are Oracle (United States), SAP (Germany), IBM (United States), Microsoft (United States), Anaplan (United States), Workday (United States), Adaptive Insights (United States), Infor (United States), CA Technologies (Broadcom Inc), Capgemini SE (France), Others

#### Definition:

Enterprise Performance Management (EPM) software refers to a category of business management software that helps organizations to plan, budget, forecast, and report on their financial and operational performance. EPM software provides a range of tools and features that help businesses to analyze their data, identify key performance indicators (KPIs), and make data-driven decisions.

#### Market Trends:

Cloud-based EPM software is becoming increasingly popular, as it offers greater flexibility and scalability than traditional on-premises solutions.

#### Market Drivers:

The need for greater visibility into organizational performance to drive decision-making.

#### Market Opportunities:

Increasing adoption of EPM software in small and medium-sized businesses.

The titled segments and sub-section of the market are illuminated below:

The Study Explore the Product Types of Enterprise Performance Management (EPM) Software Market: On-premise, Cloud

Key Applications/end-users of Enterprise Performance Management (EPM) Software Market: BFSI, IT & Telecom, Retail, Manufacturing, Healthcare, Energy and Utilities, Others

## Complete Purchase of Global Enterprise Performance Management (EPM) Software Report 2023 at Revised Offered Price @ <https://www.htfmarketintelligence.com/buy-now?format=1&report=2984>

With this report you will learn:

- Who the leading players are in Enterprise Performance Management (EPM) Software Market?
- What you should look for in a Enterprise Performance Management (EPM) Software
- What trends are driving the Market
- About the changing market behaviour over time with strategic view point to examine competition

Also included in the study are profiles of 15 Enterprise Performance Management (EPM) Software vendors, pricing charts, financial outlook, swot analysis, products specification & comparisons matrix with recommended steps for evaluating and determining latest product/service offering.

List of players profiled in this report: Oracle (United States), SAP (Germany), IBM (United States), Microsoft (United States), Anaplan (United States), Workday (United States), Adaptive Insights (United States), Infor (United States), CA Technologies (Broadcom Inc), Capgemini SE (France), Others

Who should get most benefit of this report?

- Anyone who are directly or indirectly involved in value chain cycle of this industry and needs to be up to speed on the key players and major trends in the market for Enterprise Performance Management (EPM) Software
- Marketers and agencies doing their due diligence in selecting a Enterprise Performance Management (EPM) Software for large and enterprise level organizations
- Analysts and vendors looking for current intelligence about this dynamic marketplace.
- Competition who would like to benchmark and correlate themselves with market position and standings in current scenario.
