Until now, cloud service users were limited to purchasing CRM software at unfair US prices. However, with Spanish language support, businesses worldwide can now access free CRM software in their native languages and pay a fair localized price per user in their local currency.

package. They can upgrade to our Professional edition for COP $6,000 per user. Similarly, in Mexico, users can access powerful CRM cloud software in Spanish for free and upgrade to the Professional edition for MXN $40 per month per user.
