WomenCertified Inc., home of the Women's Choice Award and partner to hundreds of hospitals and healthcare facilities, now identifies the Best Doctors across America, based on numerous points of objective criteria such as certifications and affiliations, minimum years of experience, medical license and medical background checks, and a unique and stringent process of analyzing patient reviews from across numerous publicly available sources that would yield a minimum of a 4.2 patient satisfaction rating.

Dr. Steven Karp has earned the 2023 Women's Choice Award Best Doctors designation demonstrating a strong commitment to patients. Dr. Karp strives to enhance his patients' quality of life, providing individualized care for optimal results.

"Receiving the Women's Health Choice Award is a testament to our commitment in providing the highest quality of care and service to women. It's an honor to be recognized in empowering and advocating for women's health, and we will continue to strive for excellence in all that we do." Dr. Steven Karp, D.C.

Delia Passi, Founder of Women's Choice Award and leading consumer advocate for women says, "Women carry the burden of finding the best doctors for her and her family. We have helped millions of women find the Best Hospitals, Mammogram Centers, Breast Centers and Nursing Homes for a dozen years and it's time we help her find the Best Doctors".

Receiving the Women's Health Choice Award is a testament to our commitment in providing the highest quality of care and service to women."

Earning the Women's Choice Award is particularly challenging as it entails meeting specific criteria points as indicated in a national survey by women across America. And as research shows, women are the chief healthcare officers of the household, and have the highest expectations of their providers- as they should.
