

Primeview Announced Product & Service Lineup for InfoComm 2023

Primeview to showcase how they are transforming the visual experience at this year's InfoComm

NEW YORK, NEW YORK, USA, May 3, 2023 /EINPresswire.com/ -- Primeview Global a leader in advanced video wall display and content creation solutions, announced plans to showcase their lineup of displays and services, designed to revolutionize the video conferencing environment, content creation and delivery, and enhance the visual experience at InfoComm 2023 in Orlando, Florida.

"At InfoComm 2023, we are presenting our state-of-the-art display solutions designed to transform workplace experiences. We are excited to demonstrate the use case for 5K resolution digital art and will be partnering with a variety of artists and curators to do that. In addition, we can't wait for our visitors to see how they can leverage our content creation services to drive engagement with their brand by engaging the senses."

From fine pixel pitch indoor LED solutions to outdoor LED solutions that offer the highest refresh rate on the market and Ultra Wide displays for hybrid meetings to ceiling LED tiles that can mimic a skylight or window, Primeview will showcase their most advanced set of display solutions for visitors in corporate, retail, broadcast, control room, digital art applications and beyond.

Primeview will showcase the following products and services at this year's InfoComm:

Fine Pixel Pitch Indoor Display Solutions

Custom 1.2mm Fusion Indoor LED entrance way setup with special GOB (chip on board)

The graphic features the 'ic23 infocomm' logo in the top left. Below it, the text reads: 'VIP CODE / PRI363 | BOOTH 451 / JUNE 14 - 16 | Orlando / Florida'. The right side of the graphic shows a collage of images: a control room with multiple screens, a large curved LED display wall showing a cityscape, and a person sitting at a desk in front of a display. At the bottom, there are two red text boxes. The left one says: 'Visual information can have a profound impact on the way people experience the world.' The right one says: 'See how we are transforming the visual experience @Booth 451.' At the very bottom, the 'PRIMEVIEW' logo is displayed in large, bold, grey letters, with 'ADVANCED DISPLAY SOLUTIONS' underneath it in smaller, bold, grey letters.

treatment to showcase ruggedized public display safety and content creation capabilities. The comprehensive setup will demonstrate how visitors can utilize their creativity to create brilliant high-impact branding walls and one-of-a-kind digital art from 2K/4K/8K resolution.

Outdoor LED Wall Solutions

Outdoor applications demand high-brightness DVLED and robust IP ratings. To simplify video wall deployments, Primeview has a variety of size and pixel pitch solutions for all-in-one LED walls. Primeview will showcase the flexibility these displays offer, from swapping out messages to creating branding walls or adding one of a kind digital art, this is a must see product!

Acoustic Ceiling LED Tiles

LED ceiling tiles will help Primeview showcase how visitors can create immersive one-of-a-kind experiences on-budget while dynamically improving brightness in a room or hallway. These ceiling tiles have the ability to mimic a skylight or window great for enclosed spaces. In addition, they will also showcase how custom art or other content can be shown with the right configuration.

UHD Displays

First developed for broadcast studios, Primeview will showcase their 86" interactive UHD display . These displays are used by some of the largest media companies who demand high quality performance on-air.

FusionMAX 4K | 165"

Primeview will showcase their newest generation of video walls, the FUSIONMAX™ 4K. Visitors can see the 165" display perfect for broadcast studios, retail stores, and corporate settings.

Ultra-wide 21:9 Displays + Content Creation Services & Management

Primeview's 5K interactive 105" 21:9 Aspect Ratio LCD display with the ultimate hybrid meeting table will be displayed. In addition, Primeview will also demonstrate the use case for 5K resolution digital art by partnering with a variety of artists and curators. While doing so, they will show visitors how to leverage their content creation services to drive engagement with their brand by engaging the senses.

New: 110" 16:9 Aspect Ratio

Primeview will also show their commercial grade 110" LCD's developed for both Meeting Rooms and Digital Signage purposes. See real world examples from control rooms to sports bars and a variety of digital signage applications.

See how we are transforming the visual experience at Infocomm 2023 in Orlando, Florida, Booth #451 from June 14th to 16th.
