After graduating from medical school, Dr. Muhammed Niaz faced a tough decision to leave his wife and week-old son in Pakistan for the U.S. to pursue residency. With his family's blessings, Dr. Niaz pushed through and was merited with a residency position in a New York hospital. From then, he built on his credentials to become a physician specializing in internal medicine.

His steady climb toward his dream was suddenly in jeopardy after he was prosecuted for his work on pain medication with his patients. Holding to his belief that he was only faithful to his duty, he steeled himself and went through an arduous legal battle. Now through his greatest ordeal, he gears his pen to tell his story.

Amazon customer, Ghulam Mustafa, finds the memoir an "Insightful and engaging read!" Moreover, "this book has a rather sensitive and critical subject; the legal aspects and social pressure he had to deal with once when there was an overflow of patients needing pain medication."
