

Electricity sign-up season begins with a bang as rates drop to new lows

Electricity sign-up season is here, and Texans have the power to choose new low rates with Texas Electric Service, a leader in Texas.

DALLAS, TEXAS, UNITED STATES, May 3, 2023 /EINPresswire.com/ -- Electricity

sign up season is here, and Texans have the [Power to Choose](#) their electricity provider. Texas Electric Service, a leading provider of affordable and reliable electricity plans, offers a wide range of plans from different providers, including wind, solar and prepaid options , making it easy for customers to find the best plan for their needs.

“

When shopping for an electric plan, customers should keep in mind that a savings of just 1 cent per kWh can save an average of \$120 a year for a home using an average of 2000 kWh per month.”

Jon Langley - CEO

It's important to note that electricity rates have dropped as much as 5.08 cents since last year in some markets. When shopping for an electric plan, customers should keep in mind that a savings of just 1 cent per kWh can save an average of \$120 a year for a home using an average of 2000 kWh per month.

Texas residents and businesses in deregulated markets can choose their electricity provider, and Texas Electric Service is committed to helping them save money on their

electricity rates. With post-pay and prepaid electricity service, including commercial electricity plans for all deregulated areas in Texas, TexasElectricService.com is the go-to platform for customers who want control over their electricity bills.

"Texas Electric Service has been helping Texans save money on their electricity rates for years, and we're committed to continuing that mission," said CEO Jon Langley. "We've seen a decrease of between 4.08 and 5.08 cents per kWh since last year, and we expect further reductions. By looking at past bills and identifying high and low usage months, customers can choose a plan that suits their usage patterns and helps them save money."

TexasElectricService.com provides real-time management tools and convenient payment

options, making it easy for customers to manage their electricity bills. By shopping for electricity with Texas Electric Service providers, customers can save up to 30% or more on their electricity bill.
