About TieCON50:

TiE50 is TiE Silicon Valley's premier annual awards program, contested by thousands of early to mid-stage startups worldwide. Participating technology startups benefit from significant exposure to venture capitalists, angels, and entrepreneurs, in-person product showcasing, and business partnering/networking.

Now in the fourteenth year, the prestigious TiE50 awards recognize the top technology and technology-enabled startups. We invite all startups worldwide, particularly early-stage companies, to participate.

Since the inception of the TiE50 program, about 85% of the winners and top startups have been funded with over a billion dollars. Many of these companies got acquired or went IPO. At least 29 of the exits were over \$100 Million, e.g., FireEye (IPO), Mulesoft (IPO), Pearl Therapeutics (acquired by Astra Zeneca), and Velocloud (acquired by VMware).
