SPRINGFIELD, PA, UNITED STATES, May 3, 2023 /EINPresswire.com/ --

Residents of Springfield can find affordable [dental implants in Springfield](#)

from DICE Dental. Long-lasting and natural-looking, dental implants are the most popular procedure available from DICE Dental.

DICE Dental offers dental implants, dentures, extractions, and crowns in Springfield, PA

Dental implants provide both cosmetic and practical benefits to patients. They not only replace a missing tooth. They also improve a patient's ability to eat and speak without pain.

The results of dental implants are life-changing."

Dr. Katie Alger

"The results of dental implants are life-changing," says Dr. Katie Alger, owner and operator of DICE Dental. "My favorite part of the process is when a patient sees their

new smile for the first time."

Dental implants are made up of three separate parts. The first is the implant itself, which is made from a titanium screw and is surgically placed into the jaw. The second is the abutment, which is used to connect the crown and the implant. The final piece is the crown which is made from porcelain and will strongly resemble the patient's natural teeth.

DICE Dental also offers supplemental treatments, like bone grafts and sinus lifts, to improve the success rate of a dental implant treatment.

Other cosmetic dentistry services offered by DICE Dental include dental crowns and [dentures in Springfield](#). Crowns start at \$675. Dentures start at \$599.
