ST. PETERSBURG, FLORIDA, UNITED STATES, May 10, 2023 /EINPresswire.com/ -- [DOCS Outside](#)

“

Our medical facility is honored and excited to be chosen by Standard Process to implement their study. This is a great opportunity to document how nutrition plays a role in our patients' health.”

*Lana Garner, DOM of DOCS  
Outside the Box!*

[the Box!](#), a primary, urgent, and holistic care medical facility in St. Petersburg, Florida, has teamed with [Standard Process](#), a wholefood supplement company, to study the effects of nutrition formulations on heart and gut health.

This is a call for more participants. Help further the understanding and documenting of how nutrition affects the body. Participants will be paid up to \$1050 for their time including blood draws, questionnaires, and three visits to the clinic

Needed participants are men and women, the ages of 25-80 years, on omnivorous diet (regular consumption of eggs, meat, dairy) with marginally elevated TMAO levels (>9.9uM). Trimethylamine oxide, more commonly known as TMAO, is considered an alarm bell of microbiome-disease interactions. It may be a key dietary component of an unhealthy diet that contributes to disease promotion.

If interested in participating, contact Standard Process Clinical Research Coordinator, Brea Nance at (262)495-6410 or by email at [bnance@standardprocess.com](mailto:bnance@standardprocess.com).
