

Venus Retrograde and Love Life: An Astrology Guide for Summer 2023 by Astrologer Lumi Pelinku

Astrology enthusiasts prepare for Summer 2023 as Venus, the love planet, goes into retrograde on July 23.

NEW YORK, NEW YORK, UNITED STATES, May 3, 2023 /EINPresswire.com/ -- [Astrology](#) enthusiasts,

“

By understanding the planets' positions and how they affect us, we can work with the energies to attract the life we want.”

Lumi Pelinku

get ready for an exciting Summer 2023 as Venus, the love planet, goes into retrograde on July 23. This means that love lives may slow down along with the planet's orbit, giving us the opportunity to reflect on current relationships and rebuild self-love and worth.

According to astrology expert [Lumi Pelinku](#), knowing the effects of Venus retrograde can help either strengthen current relationship or find the courage to move on. It's

not the best time to start a new relationship, but it's the perfect opportunity to tie up loose ends in past relationships, giving closure for past heartbreaks. This retrograde offers a chance to heal and deepen internal connection through self-love, rebuilding standards with family, friends, and lovers.

In addition to Venus retrograde, this summer offers various astronomical phenomena that can aid in manifesting desires, releasing outdated beliefs and situations, and connecting with higher selves. With the first New Moon post-eclipse season in May 2023, astrology guide Lumi suggests taking the time to contemplate desires before the New Moon on May 19th, located in the sign of Taurus, which rules love, money, and values, making it the perfect chance to attract abundance and love.

The natal Venus Sign can assist with finding the inner goddess and Lumi suggests looking into a birth chart to explore the sign's different flair or style in engaging in self-love rituals.

For those wanting to let go of outmoded beliefs, the Full Moon on June 3rd (Strawberry Moon), located in Sagittarius, presents a chance to work with curiosity and extend wisdom. Lumi recommends a fire ritual by burning a list of thoughts, ideas, or situations, to release the old and return its energies to the Universe.

Lumi notes that consistent practice connecting with a higher self through astrology can reveal opportunities and soul direction. The south node in a birth chart represents the path mastered in past lifetimes and can be "etheric baggage." Learning to unpack the south node shows how to connect with the north node and attract desired results.

As Lumi says, "Astrology can help connect us with our higher selves and guide us through life's uncertainties. By understanding the planets' positions and how they affect us, we can work with the energies to attract the life we want."
