

6WIND Announce Strategic Partnership with Bluefire

SINGAPORE, May 4, 2023

/EINPresswire.com/ -- [6WIND](#), a leading green-tech networking software company specializing in high-performance virtualized and cloud-native network solutions, today announced their partnership with [Bluefire](#) to help expand their reach and help accelerate the virtualization journey of CSPs, MNOs and Enterprises in the APAC market.

Virtualized & Cloud-Native Networking Software Solutions

Bluefire is a global business advisory and interim management firm with offices in Singapore and London. Bluefire works as a part of their technology sector clients' organization to turn business strategy into execution.

“

6WIND's VSR Software Solutions & the technical expertise of Bluefire's Architects will help our customers design & build next-generation virtualized networks”

Robert Jones, CEO, Bluefire

Their team of highly experienced industry practitioners are skilled in driving programs to success resulting in tangible business outcomes. Bluefire's experience spans across core practices that include Enterprise IoT and 5G Service Delivery, Market Development, Enterprise Architecture, Software (DevOps), and Digital Experience Platforms.

“The unique combination of 6WIND's Virtual Service Router (VSR) Software and the technical expertise of Bluefire's Architects will help our customers design and build next-

generation virtualized networks that will provide unparalleled efficiency and performance”, commented Robert Jones, CEO, Bluefire.

6WIND delivers high-performance and secure Virtual Service Router (VSR) Software Solutions, which are deployed bare-metal, virtualized, or containerized on COTS servers in private and public clouds.

The 6WIND VSR Software Solutions help reduce the carbon footprint by lowering the energy

consumption by more than 50%. This is done cost-effectively without sacrificing performance by drastically reducing the hardware required by the networks to deliver their services.

[The 6WIND VSR Product Suite](#); vPE, vCSR, vSecGW, vCGNAT, vBR & vCPE, have proven their energy saving capabilities and their impact on reducing the carbon footprint. These solutions deliver high performance, security, scalability, flexibility, openness and agility, to global CSPs, MNOs,

Cloud Providers, Data Centers and Enterprises. These are deployed PNF, VNF, CNF, or cloud-native on COTS servers in private and public clouds.

“We are very excited to welcome Bluefire to our eco-system. With their wealth of knowledge, technical expertise, and customer base in APAC, we can together, with 6WIND’s VSR products, deliver network virtualization seamlessly and cost-effectively to help customers accelerate their virtualization goals in the region”, commented Julien Dahan, CEO of 6WIND.

About 6WIND

6WIND is a top Green Tech company that specializes in delivering Virtualized & Cloud-Native networking software. The company is globally recognized as the leading provider of Virtual Service Router software solutions.

6WIND software solutions are deployed by CSPs, MNOs, Cloud Providers, Data Centers & Enterprises worldwide, enabling them to replace expensive hardware & build highly optimized and sustainable 5G networks with virtualized networking software solutions for routing and security use cases.

6WIND has a global presence with Headquarters based in Paris – France, Santa Clara, CA – USA and Singapore.
