

KleenEdge and Lovell Partner to Solve the Issue of Contaminated Privacy Curtains in VA Medical Centers

Lovell will serve as KleenEdge's SDVOSB vendor to federal healthcare systems.

PENSACOLA, FL, UNITED STATES, May 4, 2023 /EINPresswire.com/ -- Lovell®

Government Services and KleenEdge™ announced today that they have partnered to bring KleenEdge Privacy Curtain Protocol Software and “no ladder” curtain exchange solutions to VA Medical Centers and other

government healthcare facilities. Lovell Government Services will serve as KleenEdge's Service-Disabled Veteran-Owned Small Business (SDVOSB) vendor to federal healthcare systems such as the Veterans Health Administration (VHA), the Military Health System (MHS), and Indian Health Services (IHS).

“

We are thrilled to be working with Lovell to offer our solutions to federal healthcare providers, empowering Curtain Protocol compliance along with lean workflows.”

Karen Goelst, CEO and Founder, KleenEdge

KleenEdge's cost-saving, 100% recyclable privacy curtains can be exchanged efficiently without a ladder and are made from a non-porous polypropylene material similar to all other patient care single use disposables such as CSR wrap, face masks, and isolation gowns. They also go a step further and provide a simple, VA-approved Protocol Software that monitors all curtain exchanges. KleenEdge Curtain Protocol Software delivers scanning and reporting analysis for curtains used in medical settings. The KleenEdge Technology provides full and defensible documentation of all services performed during the

curtain life cycle, while driving a customer-desired Cubicle Curtain Protocol. Following this protocol is as easy as scanning the curtain's tag. Once deployed, the software will automatically manage and flag exchanges while gathering quantifiable data including details on Isolation Room exchanges such as MRSA, C.diff, VRE, etc.

As KleenEdge's SDVOSB Vendor, Lovell is excited to bring these solutions to federal healthcare providers. Government Customers can now find KleenEdge on the Department of Veterans Affairs' Federal Supply Schedule (FSS) and the Department of Defense's Distribution and Pricing Agreement (DAPA). KleenEdge is pending approval for the Defense Logistics Agency's Electronic Catalog (ECAT). Listing products on contract vehicles with Lovell streamlines the acquisition process while helping government agencies meet their SDVOSB procurement goals.

"Cloth privacy curtains present an unnecessary risk for contamination in hospital settings. As high-contact surfaces, unsanitary curtain protocol harms patients and staff alike by spreading infectious diseases. Lovell is very grateful to work with KleenEdge to prevent this harm," said Chris Lovell, USMC Major (Ret.), CEO, Lovell Government Services.

"Privacy curtains frequently fly under the radar, posing significant infection risk to both patients and staff. We are thrilled to be working with Lovell to offer our solutions to federal healthcare providers, empowering Curtain Protocol compliance along with lean workflows," said Karen Goelst, CEO and Founder, KleenEdge.

About KleenEdge

KleenEdge provides a Protocol Compliance Software along with "no-ladder" QuickLoad recyclable privacy curtain solutions that empower healthcare providers to establish sustainable, verifiable, curtain exchange protocols at a fraction of the cost. Our passion is in creating a safe environment for patients and staff.
