

Lignans Market to See Huge Growth by 2032: Size, Share And Trends

Lignans have gained wide importance in recent times due to their biological properties and health benefits.

PORTLAND, OR, US, May 4, 2023 /EINPresswire.com/ -- [Lignans](#) are the large group of polyphenolic compounds within the phytochemicals found in plants. They are vascular plant secondary metabolites with a wide range of physiological functions. Plant lignans are defined as polyphenolic substances derived from phenylalanine through dimerization of substituted cinnamic alcohols known as monolignols to a dibenzylbutane skeleton.

“

The increased competition, availability of substitute products, and lack of awareness hinder the growth of the lignans market.”

Lignans have wide applicability in the human diet due to its health promotion and disease-preventing properties. Flaxseed and sesame seeds are the richest source of lignans, and are utilized commercially for the fortification of food products and in the pharmaceutical industry. The other sources of lignans are soy seed, rapeseed, pumpkin

seed, sunflower seed, wheat, oats, rye, barley, legumes, beans, fruit like berries, and vegetables.

BioGin Biochemicals Co. Ltd., Hunan Nutramax Inc., Naturalin Bio-Resources Co. Ltd, Shaanxi Zebrago Industrial Co. Limited, Xian Lyphar Biotech Co. Ltd., Kingherbs Hanzhong Penghong Tianyi Biotech Co. Ltd., Hebei Xinqidian Biotechnology Co. Ltd, Skuny Bioscience Co. Ltd., TSKG Products LLC, Ipsen

The presence of lignan in various plant sources has increased the development of novel lignan synthesis models commercially. Increased investment in R&D, increasing health & fitness awareness, biosynthetic origin, immunity-boosting properties, physicochemical properties of lignan, increasing health benefits, production of fortified food products, utilization of flax hulls, increasing production of seeds such as flaxseed and sesame, surge in production of lignan extracts, surge in food processing technology, automated equipment, increasing awareness about new products, new product development, utilization of lignans in pharmaceuticals, anti-cancer properties of lignan, increasing disease conditions, incorporation of lignan in supplementary foods and nutraceuticals, high natural abundance, hormone-related diseases, inclination toward improving product quality, use of lignans in cosmetics, increased distribution channel, sanitation control in manufacturing plants, changing eating habits, and disposable income are the key driving factors of the global lignans market.

Report ID: <https://www.alliedmarketresearch.com/check-out-final/1e7c696906de404c2b4b57fca1eca0cb>

Report Title:

-> This study presents the analytical depiction of the global lignans industry along with the current trends and future estimations to determine the imminent investment pockets.

-> The report presents information related to key drivers, restraints, and opportunities along with a detailed analysis of the global lignans market share.

-> The current market is quantitatively analyzed to highlight the global lignans market growth scenario.

-> Porter's five forces analysis illustrates the potency of buyers & suppliers in the market.

-> The report provides detailed global lignans market analysis depending on competitive intensity and how the competition will take shape in the coming years.

AMR ID:

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

Pawan Kumar, the CEO of Allied Market Research, is leading the organization toward providing high-quality data and insights. We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
