Dr. Christian Arroyo, MD, provides custom treatment plans for a wide variety of surgical and non-surgical treatments for patients.

"I really wanted to do something special to help a deserving local mom look and feel her best this Mother's Day," said Dr. Arroyo. "Moms are often so busy taking care of everyone else, they put their needs on the bottom of the list when it comes to self-care and personal gifts. The Mother's Day giveaway is a perfect way to share our appreciation for all moms and give one special mom the natural-looking beauty boost she has secretly dreamt of without undergoing surgery."

The Mother's Day Makeover Giveaway package will feature non-surgical treatments that enhance the skin and target signs of aging with little or no downtime including:

- Six Sciton "SkinTyte" sessions for any area of the face or body. SkinTyte is an innovative skin tightening treatment that uses the power of broadband light to boost collagen production and firm, tighten, and lift the skin for a more youthful appearance with natural-looking results.
- Two Medical Grade Facials. Medi-facials target specific skin challenges (fine lines, wrinkles, sunspots, hyperpigmentation, rosacea, acne) and use a combination of active ingredients and medical-grade equipment to achieve longer-lasting results that penetrate below the top layer of skin to encourage healthy skin that can regenerate naturally.
- One Vi Precision Plus Peel. The Vi Precision Plus Peel is a highly effective treatment that attacks stubborn melasma and pigmentation problems without pain, skin preparation, or a lot of downtime. The Vi Precision Plus Peel improves the tone, texture and clarity of skin, reduces or eliminates age spots, freckles, actinic keratoses, and hyper-pigmentation, softens lines and wrinkles, clears acne skin conditions, reduces or eliminates acne scars, and stimulates the production of collagen for firmer, more youthful skin.
- One Area of Botox up to 20 units. Botox is a popular injectable that temporarily reduces or eliminates facial fine lines and wrinkles. The most commonly treated areas are frown lines, forehead creases and crow's feet near the eyes.
- SkinSceuticals C E Ferulic Vitamin C Serum. A patented daytime vitamin C serum that delivers advanced environmental protection for the skin, improves the appearance of fine lines and wrinkles, loss of firmness, and brightens skin's complexion.
