Planning is different for Women than Men.

Preparing for Retirement and attaining financial security is not an easy task for anyone, but Women tend to face more hardships than Men in this area.

“

All Knowledge comes from Experience. ”

*Albert Einstein*

Reason # 3 :

Women can expect to pay more in Health Care Costs in Retirement.

According to Fidelity Investments, a 65-year-old couple retiring in 2022 will need \$ 315,000 to cover health care

and medical expenses throughout retirement. Every year, that cost seems to go up.

But it isn't an even split.

Since Women usually have a longer life expectancy, they can expect to pay more.

That figure also doesn't include Long-Term Care. Couples generally care for each other as long they can. But if her Spouse predeceases her, which is likely, a surviving Widow may need to pay for outside care for herself. Both Home Care and Facility Care costs keep rising annually.

And because Women generally live longer than Men ... Women will have a longer lifespan to

contend with Out-of-Pocket Medical Costs.

Knowing the unique obstacles Women face is an important first step in obtaining a secure financial retirement for a Woman.

Knowledge is power. And what a Woman does with that knowledge is her empowerment.

According to the Social Security Administration : “ Social Security is the major source of income for most of the elderly ”, especially for Women.

Social Security can provide Women with a strong foundation of financial protection if they take know how to advantage of what is available to them.

Fraser Allport helps Women learn which Social Security benefits they are eligible to receive :

their own Benefit, a Survivor Benefit, or

Spousal, or Divorced ? Fraser will help a Woman understand the rules that apply to them, and when to choose the specific strategies that maximize their specific situation.

All Knowledge comes from Experience.

And Experience Matters. That's Fraser.

To afford the large and inevitable expenses that a person will spend on medical care in retirement as they age, they should budget accordingly in their Financial Plan. It's logical and an imperative : Don't forget to factor in Out-of-Pocket Health Care costs when calculating Financial Planning in Retirement.
