Planning is different for Women than Men.

Preparing for Retirement and attaining financial security is not an easy task for anyone, but Women tend to face more hardships than Men in this area.

All Knowledge comes from Experience. "

Albert Einstein

Reason # 4 :

Women are typically more Conservative Investors than Men.

Yet in most marriages ... There is only one plan for both Spouses.

Conservative investing pays dividends with safe, steady, and predictable returns.

Prudent Women are wise to chose the safe and steady route, because who won the race: The Tortoise or The Hare?

But without a Spouse's Income and Assets, a single or divorced Woman may need to pull more income from their investment savings in Retirement if their Social Security and pension benefits are insufficient for a chosen Standard of Living.

Or worse, a Woman may be forced to work Part-Time in Retirement to make ends meet. Or work until she dies, which is very common in the USA.

The way to avoid working until one dies ... is to start saving, investing, and planning today.

Procrastination is the # 1 problem when it comes to building a successful Retirement Plan.

Retirement does not just happen by accident, or by itself. It is not a given that one can retire.

Planning is a verb. [Retirement Planning](#) requires Action.

Time is Money, and Time does not come back. Start your Retirement Plan today.

Bottom Line: A Woman should start to plan now for being self-sufficient in their Retirement years, independent of their Spouse.

And if a Woman sees Money, Risk, Savings, and Investing differently than her Spouse ... than that Woman is wise to chart her own course, and build her own Financial Plan.

Knowing the unique obstacles Women face is an important first step in obtaining a secure financial retirement for a Woman.

Knowledge is power. And what a Woman does with that knowledge is her empowerment.

According to the Social Security Administration: " Social Security is the major source of income for most of the elderly ", especially for Women.

They will have more of it.

To afford the large and inevitable expenses that a person will spend on medical care in retirement as they age, they should budget accordingly in their Financial Plan. It's logical and an imperative : Don't forget to factor in Out-of-Pocket Health Care costs when calculating Financial Planning in Retirement.
